A must for diy garden planningBy Amelie MorrowExcellent content. Covers so many little details that would be easy to overlook when planning a garden. Things that the consequences could be just an inconvenience or a full scale disaster. A must for diy garden planning.2 of 2 people found the following review helpful. Landscaping 101By CustomerHome Depot does it again with this helpful Landscaping books. Step by easy step they take you along so that you too can design a simple landscaping project for yourself. I've learned alot and

now find myself being able to spot designs that I've learned. It was a great teaching tool for me as a beginner.

Specific edition for hotter climates tells gardeners everything they need to know about landscaping.
