It doesn't take very long to read it. It was received in a very short amount of time, and like brand new!!0 of 0 people found the following review helpful. A small yet well done little bookBy NY readerThis little book is a nice gift size. It is rather interesting as it does sum up a natural home life style in such a tiny book. I have to say if you want a natural home and have one book on the subject this could be it!0 of 0 people found the following review helpful. Nice pocket bookBy monicaNice book, beautiful pictures, but it is too small for me, it is like a pocket book. There are simple and good ideas.
