Cross Stitchers HeavenBy AnnetteAnyone who loves precious moments will love this book as it has so many different patterns and designs and if you don't want to add the words to the stitches, you don't need to as I've done a few of these and omitted the phrases at the bottom so that I can use them for other things than just Christmas time. Every single person that I made a precious moments cross stitch for this year for Christmas was so excited and now I have a new book that uses most of the same colors I already have in the floss and to buy the cross stitch fabric in all counts is included in how large or small the pattern will end up being. Love these books and am still looking for more as I have 3 of the small pattern books and now I have another large one. Love these and can't wait to get started as I have already picked the first 4 I plan on doing. Keep it up Gloria and Pat as you guys rock.0 of 0 people found the following review helpful. Good purchaseBy StrotzoI love the precious moments figurines, the book has fun and simple patterns and the instructions are easy to follow.0 of 0 people found the following review helpful.
