Elizabeth Lynn Casey : Reap What You Sew (Southern Sewing Circle Mysteries) before purchasing it in order to gage whether or not it would be worth my time, and all praised Reap What You Sew (Southern Sewing Circle Mysteries):

1 of 1 people found the following review helpful. Too Little Stars For This Great ReadBy J L RigodThe Southern Sewing Circle ladies are at it again...they are fully mixed up in the latest and quite spectacular murder to hit the gentle

streets of Sweet Briar, South Carolina. This time it is a harmless (or was it?) comment made to Leona, passed on to Margaret Louise by our main sleuth, Tori. Just a comment that evolved into a death of opportunities, for some. A movie is going to be shot in Sweet Briar's streets and the 'extra's' are going to be selected from only local residents. Tori laughs at this until she reads that the movie is a book she loved, then she finds herself with the rest of the town, holding a photograph of herself and hoping. To use a well worn cliché...all that glitters is not gold...and the woman cast as the Leading Actress, is hated and also a block to Leona's aspirations. When the woman is murdered, Tori realizes she had better work quickly to save her friends and herself! There was also a poignant under-story line that was very delicately written. This was the best in the series yet...my problem? I've run out of stars to give. 1 of 1 people found the following review helpful. Tori is at it again. By Nrhaller All of these Southern Sewing Circle books are fabulous. Elizabeth Lynn Casey has a wonderful ability to draw the reader into the scenes and make you wish you lived in Sweet Briar. Not only do I wish I lived there, but also wish all the women in Tori Sinclair's sewing circle were my friends too. Tori has a knack for ferreting out the clues that need to be found in order to make the correct arrest of the murder. Her mind just "worries" or "gnaws" on all these questions until something pops. She is a fantastic librarian, and loves her job. You definitely need to read this series, from beginning on through, even though each could stand alone. I am patiently awaiting the next book in Aug. It will be like a vacation with a bunch of friends. Even if you do not like to sew, please try the first book, I think if you like cozy mysteries you will love these as much as I do. If you do like to sew, you will be happy to know there are sewing tips at the end, as well as patterns for whatever sewing project Tori's sewing circle made for charity. Hope you try these out. 3 of 3 people found the following review helpful. Cozy mysteries... By Customer I love cozy mysteries. This was entertaining, and not a bit predictable as some cozies are. The story is a little too wrapped up in the personal romance issues of the main character, and in this offering by E. L. Casey, it tended to detract from the story. But, it was an easy read for a rainy day.

Sweet Briar is chosen for the setting of a new movie, and everyone is hoping to be cast as an extra-and lucky Tori Sinclair lands the gig. But fame has its price, as the town learns when the film's leading actress is found murdered. When suspicion falls on a member of the sewing circle, Tori must catch the killer to keep the tight-knit group from coming apart at the seams.

About the Author Elizabeth Lynn Casey is the author of the bestselling Southern Sewing Circle Mysteries, including Wedding Duress, Taken In, Remnants of Murder, and Let It Sew.
