One of the activities in this book, which advertises itself as a "Kindergarten Activity Book", is a picture of two mothers strolling their babies. The picture does not include the mothers' faces, only their bodies from the neck down. The mothers are dressed very inappropriately, with tattoos and lit cigarettes dangling from their hands. REALLY? This is NOT what I want to show my young grandchildren. One of the children is pictured pulling out a fistful of what appears to be his mother's cigarettes - apparently mommy must be too busy talking to notice. On several other pages they ask you to "Encircle the objects that are of the same direction." The fruits and vegetables shown would be VERY difficult for a child to identify because the shift in direction is very subtle. The fruits and vegetables have a slight light patch of coloring on each, and if you look at these you can tell which one is different, but I don't think a 5 year old will do this. Overall, in my opinion not worth the money. I will be throwing this book in the trash only because it is not worth my time to repackage it, print a label, and send it back. I will not order from SPEEDY PUBLISHING again.1 of 1 people found the following review helpful. I am disgusted that a company would portray this as a children's book. Knives, cigarettes, alcohol, sex etc. I would hope would remove this from this children's area.

Hone your child's skills at identification and object familiarization in these funny activities that demand your child's attention. The concept of same and difference helps improve your child's memory and number skills too! The use of attractive images and easy-to-follow instructions make this activity book a lot more entertaining for young children. Grab a copy today!
