However, unless you are an experienced crocheter tackle these patterns with some trepidation. The directions lack the specificity of most crochet books.1 of 1 people found the following review helpful. Lovely, stylish crochet patternsBy Kelly BarberIf you think crochet can only produce frumpy, boxy garments, then this book is worth checking out. I have a new perspective on the potential of crocheted clothing now. The garments are so elegant, and so is the photography and presentation of the book itself. Think how fun it would be to treat yourself to some luxury yarn and a create a beautiful new addition to your wardrobe with one of the patterns in this book!0 of 0 people found the following review helpful. Detailed instructions makes it easy to followBy Y. OrtizI have been teaching myself crochet and was ready for something pretty to make. This did it for me. Some of the patterns are cool enough for teenagers.

Love it.
