I truly enjoy every page. I would rather have more pics to color and no duplicates. the duplicates don't get colored, they are really just a waste. Other than that these books are wonderful.1 of 1 people found the following review helpful. Here's looking at you, babeBy Peridot PatDarling pictures--very detailed little dresses. But just like her other books!!But I would have never guessed that their little glasses would be so hard to color--but I haven't told them because I didn't want to remind them that they are a little geek!!I honestly don't think they are!2 of 2 people found the following review helpful. PERFORATE THE PAGES

PLEASE!!By WubiCute pictures. I just spent a lot of time completing a page for my niece and went to remove it from the book and it tore. They really need to perforate the pages. I hate that it not perforated because it really hard to detach...at least for me. I like the images but would not purchase again unless perforated.
