**Robert Copeland : Spode Copeland Marks: And Other Relevant Intelligence** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Spode Copeland Marks: And Other Relevant Intelligence:

1 of 1 people found the following review helpful. An essential tool. By Avery Gordon This book is indispensable for those who either dabble in Spode Copeland, or buy and sell it. Nowhere else can you find the definition and dates of the marks on back of all the china and stoneware pieces and patterns, plus a history of the family business. Great book. 1 of 1 people found the following review helpful. Great reference. By Sheryl Beardsley If you like or are interested in Spode china, this is the book you should have to be able to date the dishes! 5 of 5 people found the following review helpful. bluewillow opened the door for me into the world of china. By Renee Grover And this book has played a big part-It contains marks from the beginning-1749 and even goes into the earlier markers-it is great for those who are researching china and the marks on them-I found it at my local library-It contains some pictures black and white-but you can still see details and the marks are wonderful though your eyes can blur if you look at them too long! I would really like to thank Robert Copeland for writing this book and yes he is the great great grand son of the original Copeland-I highly recommend it to those who share an interest in all types of China and or Pottery.

Aimed at dealers, antiquarians, auctioneers, museum curators and potters, this work contains every known mark used by Spode, with an account of their dates, use and other relevant information. The author, Robert Copeland, is great

great grandson of William Copeland, Josiah Spode's original partner.
